

The diagram shows a central gray rectangle representing the front of the canvas. It is surrounded by a blue border representing the edges. Further out are green lines indicating the total print area. Red lines form a larger square with diagonal lines connecting the corners of the gray box to the corners of the red square. Two pink lightbulb icons are placed: one at the top center and one on the right side, within the blue border area.

## 8x10 Canvas Print

Place art on top of this template extending to the green lines.

Art placed in the gray box will be shown on the front of the canvas. Image outside the gray box will show on the edges wrapping the canvas.

Recommended resolution is 150 dpi with 300 preferred.
